Making New Slides

Q: How do I start a new slide?
- ▶ Use a "## Heading" to title slide with content
- ▶ For no heading, write ---
- ▶ For a title-only slide, use a "# Heading"

Demo:
- ▶ The next slide is Title Only Slide.
- ▶ The slide Afterwards is a titleless slide.

Example Title-Only Slide

Formatting Text

Q: How do I bold, italic, or underline text?

- *Italics*
  - use *single asterisks*
- **Bold**
  - use **double asterisks**
- <u>Underline</u>
  - Use [a bracketed span]{.underline}
- `Quoted Code`
  - use single backticks (`) for inline code
  - use triple backticks (```) for blocks of code

Images

Q: How do I add Images?

Images

A link immediately preceded by a `!` will be treated as an image. The link text will be used as the image's alt text:

```
![la lune](lalune.jpg "Voyage to the moon")

![movie reel]

[movie reel]: movie.gif
```
